

PyData Global

PyData Global 2020

NEWSLETTER

JULY 2020 ISSUE

We are live!

The world's premier data science conference is going online and global for the very first time with PyData Global 2020 (Nov 11-15)! The conference will span five days packed with talks, tutorials, posters, open-source sprints and a digital hallway track.

We will very soon release ticket prices on our website, and ticket sales will follow in the coming weeks. In the meantime, don't forget to follow @PyData on Twitter or talk about us on social media using the #PyDataGlobal2020 hashtag!

CALL FOR PROPOSALS

Call For Proposals

The call for proposals (CFP) is open and moving fast! We are about to hit 200 proposals, and over 300 users have signed up to submit one. The CFP is open for Talks, Short Talks, Tutorials, Sprints and Posters, and **will close on August 2nd**.

Whether you are new to technical speaking in general, or new to the PyData community, first-time speakers are especially welcome. With our mentored first-time speaker program, we will help newcomers give their best presentation possible!

We are also currently looking for past speakers and experienced community members to become proposal reviewers. Sign up and help us select the program for PyData Global 2020! Note that the proposal selection will be carried out in double-open format: reviewers will be public, and reviewers will know who they're evaluating.

REVIEWER FORMS

Sponsorships

We are actively looking for sponsors and are expanding our horizons to support the Open Source community and the NumFOCUS sponsored project. If your company is interested in sponsoring the event, or you know someone who might be interested, please write to us at global@pydata.org.

SPONSOR US

Diversity, Equity and Inclusion

The Diversity, Equity and Inclusion (DEI) committee at PyData Global 2020 is a group of organizers with the sole task of delivering a conference that is diverse and welcoming for everyone.

DEI committee members work on every aspect of our conference, from proposal selection to technical platform decisions. As its first major milestone, the DEI committee organized proposal writing workshops last week. These workshops help propel new members of our community to becoming speakers.
